Adjustable lamp head for a directional light • Dimmable • Soft and diffused light • Elegant brass detail • Long LED lifespan (30,000 hours)

Kaito Dim by Danish designer Bønnelycke MDD is carried out in a round, modern design. The integrated LED module is dimmable and ensures a soft and diffused light from the uniform surface. The functional kip joint, made from brass, adds an elegant superiority to the design and the possibility of directing the light in any direction.
