

A-Tube Nano Swing,
Design by Studio Italia Design

Model A-Tube Nano Swing medium

A-Tube Nano reinterprets the A-Tube collection with a lamp that expresses light in its purest form, tracing an elegant luminous line in space. As thin as a pin, it draws its intrinsic strength from the simplicity of a graphic element, the line, which gently defines the atmosphere with a design that is as simple and light as it is refined and functional.

A-Tube Nano Swing medium	Light source	Structure: Metal	Diffuser: Methacrylate	Code 2700 K	Code 3000 K
